PURPOSE OF NFC CARDS

Good Design is Good Business

NFC-enabled business cards offer a modern and innovative solution for businesses looking to enhance their brand image, improve networking efficiency, and contribute to a more sustainable future.

For businesses, company image and data security is the key factor of consideration for example when an employee leaves the company, conventional business cards are misused. With NFC enabled cards, this is mitigated easily by disabling the online profile of the employee

EVERY PERSON YOU MEET IS A CONTACT

Simply tap your NFC-enabled business card against a compatible device (like a smartphone) to instantly share your contact information, website, social media profiles, and even digital files.

No more fumbling with paper cards or typing out contact details.

Meet	Exchange Contact	Follow up	Close
			

BENEFITS

NFC (Near-Field Communication) business cards offer a convenient and efficient way to exchange contact information.

Efficiency

Streamline your networking experience with a quick and easy digital exchange.

Convenience

Always have your contact information readily available, no matter where you go.

Eco-friendly

Reduce paper waste and contribute to a more sustainable planet.

Professionalism

Make a lasting impression with a modern and technologically advanced business card.

THANK YOU
